SOFTWARE SOLUTIONS

MANAGEMENT SYSTEM FOR EFFICIENT PRODUCT COMPLIANCE

A ready-made package of time-saving compliance tools and other features designed to help you organise and improve your day-to-day compliance work.

SUPPLIER COMPLIANCE PORTAL WITH SCIP INTEGRATION

A cloud-based solution for efficient supplier compliance management that enables you to collaborate with your suppliers, manage supplier compliance documentation and mitigate your exposure to supplier-related risks.

01

Leverage numerous digital tools (e.g. Legislation Finder, Standards Finder, and Global Marking Finder) to reduce the time and cost spent on compliance tasks.

02

Get a complete "snapshot" of your company's product compliance processes and initiatives in an easy-to-use, interactive display.

03

Stay up to date with the changes and updates in the regulatory framework using a regulatory monitoring system. Monitor the standards and regulations for changes and take immediate actions if compliance issues arise.

PRODUCT COMPLIANCE MANAGEMENT SYSTEM

04

Create custom roadmaps to track, plan and manage compliance projects from start to finish.

05

Use custom workspaces to ensure collaboration and coordination between the compliance team, product development unit, and any other group involved in the release of a product.

06

Design, store, generate and distribute important compliance documentation. Set up document templates, streamlining the production of legal documents, increasing workplace efficiency and ensuring a high level of governance and quality.

07

Get real-time status updates regarding the regulatory compliance of your products and take timely actions to avoid non-compliance.

SUPPLIER COMPLIANCE PORTAL WITH SCIP INTEGRATION

FEATURES

01

Easily report what restricted substances you use in your products. Export the data from the system, and directly import it into the SCIP database.

02

Easily refer to the SCIP numbers of your suppliers, a new European requirement from 2021.

03

Pull out relevant reports over your data, such as "average time to answer", "non-compliant suppliers", "not responded", etc.

04

Create custom forms to collect any type of information from your suppliers.

05

Set up any type of workflows you need to keep you and your suppliers on the right track. E.g. if a supplier hasn't replied within 14 days, send them a reminder.
