

A template of a test record sheet for recording test results produced by routine tests

1. Safety – Production Line Test Report

Equipment under test	Serial No.	Supply voltage	Class	Applied part type (if applicable)

2. Dielectric Strength Test Report

Description	Expected results	Results breakdown (Yes/No)	Pass/Fail
..... Vac or Vdc between and	Test should be completed with PASS result		

Equipment used in the test:

Description	Manufacturer & Model	Serial No.	Calibration due date

Tested by: Signature: Date:

3. Earth continuity test report

Test point No.	Description of testing points	Expected results	Pass/Fail
1		Continuity	
2		Continuity	
3		Continuity	
...		...	

Equipment used in the test:

Description	Manufacturer & Model	Serial No.	Calibration due date

Tested by: Signature: Date:

4. Leakage currents test report

No.	Description	Expected results	Measured current (mA)	Pass/Fail
	Earth leakage current	≤ mA		
	Touch current	≤ mA		
	Patient leakage current	≤ mA		

Equipment used in the test:

Description	Manufacturer & Model	Serial No.	Calibration due date

Tested by: Signature: Date:

Verified by: Signature Date:

Notes: _____

QA Review of Production Line Testing: Accepted / Rejected

QA: Signature: Date:
