

List of generic hazard categories

Mechanical

Pinch/Amputation

Crushing

Shearing

Laceration

Puncture

Projectiles

Abrasion

Friction

Insertion

Entanglement

Entrapment

Stability

Overload

Small parts/Choking

Aspiration

Magnets/Ingestion

Strangulation

Suction

Drowning

Flammability

Solids/Textiles

Liquids

Gases

Mists/Dusts

Thermal

Hot surfaces

Cold surfaces

Expansion

Contraction

Decomposition

Electrical

Shock

Overcurrent/Fires

Sparks/Arcs

Batteries

Falls

From elevation

Slips

Trips

Uneven surfaces

Falling over

Falling onto

Falling with

Toxicity

Oral

Dermal

Inhalation

Light

Carcinogenic

Allergenicity

Noise

Continuous

Impulsive

Irritation

Eye

Skin sensitization

Corrosion

Radiation

Ultraviolet

Infrared

Laser

Microbiological

Bacteria/Virus

Yeast/Mold

Preservative efficacy

Filth and contamination

Human factors

Strength

Stamina

Reaction time

Human error

Stress

Cognitive overload

Perception

Control

Inadvertent activation

Failure to activate

Inadequate visibility

Ambiguity

Emergency off

Environment

High/low temperature

Humidity/Rain

Ozone

Ultraviolet radiation

Sand/Dust

Vacuum

Lightning

Fog
